## EXPERIENCE

### iTero Gaming

Frontend Developer  
2022 - Ongoing

Responsible for frontend design, architectural and technical decisions managing all aspects of prototyping, wireframing, debugging and coding activities.

Designed and developed an AI coaching app for League of Legends adhering to React best practices and ensuring code is well documented and tested.

Redesigned and implemented existing website - migrating from Python to Next.js - ensuring responsiveness, improving UI/UX and increasing conversion rates.

Actively maintain codebase resolving any occurring issues through interacting with beta and end user feedback on Discord.

### Red Technology

Web Developer  
2021 - 2022

Contributed to the in-house ecommerce platform and tools development increasing team and developer productivity.

Collaborate with designers and project managers to build and deploy multiple responsive ecommerce websites for clients ensuring they were delivered on time and within budget.

Participate in code reviews and weekly developer meetings to discuss and keep up to date with latest industry news and trends.
